Key Qualifications:

I am a Sociologist and Gender & Social Safeguards Specialist with over 10 years of experience in social and gender analysis, stakeholder engagement, public participation, and community development across infrastructure, energy, transport, water and sanitation, irrigation, and petroleum projects. My expertise includes Environmental and Social Impact Assessments (ESIAs), Resettlement Action Plans (RAPs), socio-economic baseline studies, Stakeholder Engagement Plans (SEPs), Grievance Redress Mechanisms (GRMs), social due diligence, strategic environmental assessments, and construction-phase social safeguards monitoring.

I have extensive experience designing and implementing social intervention strategies, facilitating community consultations, and integrating Gender Equality and Social Inclusion (GESI) principles into development projects. My work is guided by Kenyan legal and regulatory frameworks and international safeguard standards, including the World Bank Environmental and Social Framework (ESF), African Development Bank Environmental and Social Safeguards, IFC Performance Standards, KfW Sustainability Guidelines, and the Equator Principles.

Core Skills & Competencies

- **Social Safeguards & Stakeholder Engagement:** Expertise in stakeholder engagement, public participation, community mobilization, grievance redress, and social risk management across infrastructure and development projects.
- **Environmental & Social Assessment:** Experienced in Environmental and Social Impact Assessments (ESIA), Social Impact Assessments (SIA), Environmental and Social Management Plans (ESMP), and regulatory compliance.
- **Resettlement & Socio-economic Studies:** Skilled in Resettlement Action Plans (RAP), socio-economic baseline surveys, land acquisition support, compensation planning, and livelihood restoration.
- **Gender Equality & Social Inclusion (GESI):** Strong experience integrating gender, inclusion, vulnerable group engagement, and social safeguards throughout the project lifecycle.
- **Community Development & Capacity Building:** Proven ability to design and implement CSR initiatives, facilitate training, strengthen institutional capacity, and promote sustainable community development.
- **Monitoring, Evaluation & Technical Reporting:** Experienced in safeguard monitoring, data collection and analysis, compliance reporting, and preparation of high-quality technical reports.

- **International Safeguards & Regulatory Compliance:** Working knowledge of the World Bank Environmental and Social Framework (ESF), IFC Performance Standards, AfDB Integrated Safeguards System (ISS), Kenyan legislation, and other international best practices.

Adequacy for the Assignment

Detailed Tasks Assigned on Consultant's Team of Experts:	Reference to Prior Work/Assignments that Best Illustrates Capability to Handle the Assigned Tasks
